2018

Acquisition of customers in Asia as well as penetration of the agricultural market with our PP Virgin Translucent Anti UV solutions

2017

Expansion of the range with our Recycled PP Rolls, Virgin PP Sheets, Marketing, Box Holders and DIY

2019

Development in Europe where we will present our latest product innovations at our next show

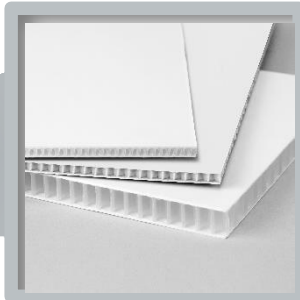

The solution To All Your Construction Projects

TunnelCore offers a wide range of Recycled PP Sheets and Rolls for Construction and Renovation projects:

- Lost formwork
- Translucent palisade tops
- Temporary protection of floors, walls, showcases
- Reusable soil protection

Our Range PP Alveolar

Our Sizes and Formats

We can realize your sizes on request. Our main formats, adapted to each use, are:

- 1 800mm x 20m: rolls for large surfaces, inside or outside
- 2 2250mm x 1220mm: sheets for medium surfaces, inside or outside
- 3 1000mm x 1000mm: sheets for interior renovations
- 4 2000mm x 1000mm: sheets for protection of doors and windows

The Different Thicknesses and Densities

We offer the possibility to order different thicknesses and densities according to your uses:

- 1 3mm in 280g / m²: intended for small interior work
- 2 4mm in 400g / m²: absorbs shocks and protects your floors / walls
- 3 5mm in 650g / m²: ideal for structural work and formwork

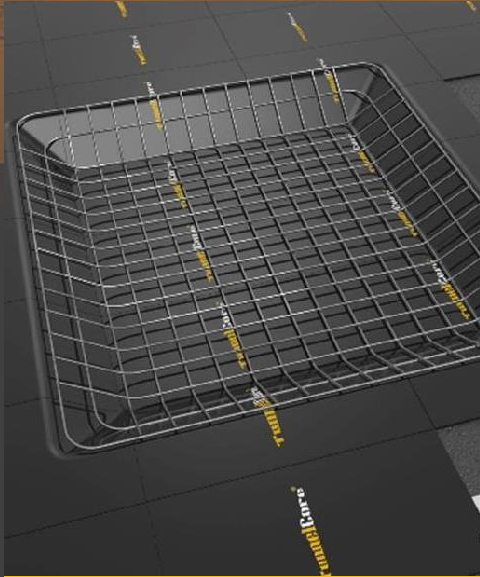

Our Colors

We have 3 color segments according to their compositions:

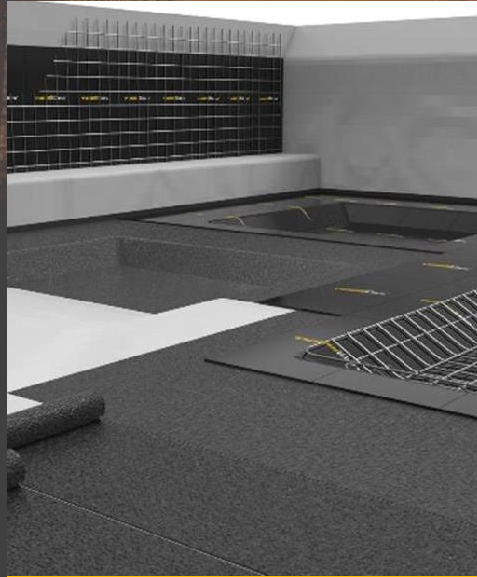

- 1 Dark colors, 100% PP Recycle: blue, green, black, brown, gray
- 2 In 100% PP Virgin, we can realize all your colors: Yellow, Red, Orange, White, Transparent, and many others
- 3 UV treatment, flame retardant, corona, etc.

The Advantages Of PP Alveolar

Easy and Quick to Install

Our 240 * 200cm Rolls offer the possibility of covering a large area in record time. Our 220 * 100cm Sheets make it easy to install your greenhouse in your garden.

Our Harvest Boxes

They are lightweight, hygienic, reusable, foldable and waterproof. You can order them at your size and with your logo.

Translucent and Anti-UV

Our Rolls and Sheets are Translucent and equipped with an anti-UV treatment allowing them to let the light pass while having a duration of consequent use.

Our 100% Recycled Boxes

All our boxes are made from PP 100% recycled and thus participate in the safeguarding of our planet.
